

TRURO SCHOOL FOUNDATION

September 2018 Award Recipient - Student A – 1st Year

My time so far has been amazing. I have made loads of new friends that are very kind and helpful to me. My teachers are also very kind and they help you when you are stuck with something.

I do an array of clubs, ranging from music to sports - running and swimming, fencing, trampolining and junior band. I enjoy all these opportunities and amazing activities very much. My Wednesday afternoon activities have been Drama technical team and the junior play/drama skills. And I've experienced ethanol being set on fire!

Form Tutor – following first term report

This student made a wonderful start to life at Truro School. A delightful member of the form, who brings a smile and a positive outlook to our tutor group. The comments and grades contained within the first report are a testament to that and the individual can be absolutely thrilled with the progress made in this short time. Away from academic work, the student took part in a variety of different areas of school life, from cross-country and football to playing in the Junior Band and attending the DT workshop. Clearly making the most of the opportunities available. Well done!
